

NEIL LOUIE C. BUDOL

Antipolo City | neilbudol@gmail.com | <https://www.linkedin.com/in/budol-neil/> | +639623040219

IT graduate with hands-on experience in full-stack development, backend systems, and project leadership. Skilled in developing software solutions, managing projects, and collaborating with teams to achieve goals. Experienced in leading software projects from planning and design to development and deployment. Strong problem-solving, analytical, and communication skills, with a passion for creating efficient, user-focused applications and continuously learning emerging technologies.

CORE SKILLS

- **Development** PHP, Laravel, JavaScript, Python (basic), HTML5, CSS3, REST APIs, CRUD, responsive web development
- **Frontend / UI** Bootstrap, Tailwind CSS, responsive design, UI implementation, Figma fundamentals
- **Data / Backend** MySQL, MariaDB, relational databases, database design, migrations, backend integration
- **Cloud / Infrastructure** AWS fundamentals, Amazon EC2, S3, VPC, RDS, cloud infrastructure concepts, scalability, availability, security
- **IT Support / Systems** Hardware & software troubleshooting, networking, system analysis, documentation, user support.
- **Tools / Workflow** Git, GitHub, Composer, Vite, Node.js/npm, Laragon, VS Code, Docker fundamentals, Microsoft Office

KEY PROJECTS

- **Project Management System** – Philippine National Police (ITMS Department)
 - Centralized project tracking system adopted by the System Management Division; led full-stack development, backend integration, and documentation.
- **EcoCyclix** – Don Bosco Technical College
 - IoT-integrated capstone project; directed a multidisciplinary team, managed delivery, and ensured compliance with academic and stakeholder standards.

CERTIFICATIONS

- AWS Cloud Quest: Cloud Practitioner
- AWS Fundamentals of Machine Learning and Artificial Intelligence
- CSS NC II - Networking
- Cyber Threat Management
- Introduction to Cybersecurity • Introduction to IoT and Digital Transformation

PROJECTS

- **Mercedes-Benz Website Reimagining** | HTML, CSS
 - Reimagined a Mercedes-Benz web experience with a clean, responsive interface and modern visual styling.
- **Pokémon Memory Match** | HTML, CSS, JavaScript
 - Created a browser-based memory matching game using custom visual assets and interactive JavaScript game logic.
- **Coco Tea Website** | HTML, CSS
 - Built a beverage and brand-style website focused on structured layouts, image presentation, and responsive frontend styling.

PROJECT EXPERIENCE

Project Manager | Full Stack Developer

Project Management System (PMS) – Philippine National Police, ITMS Department

- Led the development of a centralized project tracking and monitoring system adopted by the entire System Management Division of ITMS, serving developers, team leaders, system analysts, and information researchers.
- Designed and implemented dashboards, backend functionalities, database schema, and system integrations to ensure scalability and reliability.
- Directed a development team through the full SDLC — requirements gathering, planning, design, coding, testing, deployment, and maintenance.
- Optimized database queries and authentication protocols, improving system performance and data integrity.
- Produced technical documentation, specifications, and user manuals to support onboarding and long-term sustainability.
- Improved efficiency by reducing manual reporting time from weeks to days, streamlining accountability and collaboration across roles.

Capstone Leader & Full Stack Developer

EcoCyclix – Don Bosco Technical College

- Directed a multidisciplinary team in designing and developing the EcoCyclix capstone project, integrating IoT-based automation modules for sustainable technology solutions.
- Managed project planning, task allocation, and milestone tracking, ensuring timely delivery of objectives.
- Developed system features and backend services with a focus on scalability, modularity, and user-centered design.
- Implemented biometric integration for enhanced security, showcasing innovation in applied IT solutions.
- Coordinated presentations, documentation, and stakeholder communications, bridging technical and non-technical audiences.
- Achieved recognition for innovation and project management excellence, strengthening academic and professional credibility.

EDUCATION

Bachelor of Information Technology

2021 - 2026

- Don Bosco Technical College
- Graduated Batch 2026
- Thesis on "ECOCYCLIX: A Biometric-Integrated Automated Bicycle Carousel Parking System for Enhanced Security and Accessibility at Don Bosco Technical College"

General Academic Strand

2019 - 2021

- World Citi Colleges Antipolo City
- Relevant coursework in Structural Design and Project Management.
